

# ASCENTIA<sup>TM</sup> P

[ S E R I E S ]

THE PREMIUM  
NOTEBOOK FOR  
POWER AND  
PERFORMANCE

**AST**<sup>®</sup>  
COMPUTER

## NEW FEATURES ENHANCE TOP PERFORMANCE AND ON-THE- GO FLEXIBILITY.

■ Desktop power, flexibility and complete mobility. That's precisely what AST delivered when we were first to market 133 MHz Intel® Pentium® processor notebooks: the highly

acclaimed, Ascentia P Series. ■ Now we've raised the bar on our line of premium notebooks, with enhanced features for impeccable performance. With the high-speed 6X CD-ROM module, you can use

up-to-the-minute CD databases and enjoy multimedia presentations. Our new integrated 28.8 kbps data/fax modem lets you explore the information superhighway or send e-mail instantly. And now, you can match your 133 MHz Intel Pentium processor with 24 MB of memory. Plus, you'll get a crisp, bright 12.1" diagonal Active-Matrix color screen, with

Super VGA resolution. ■ And the Ascentia P Series' original power features are all still there.

Our own SmartBay lets you switch between a high-speed CD-ROM drive, floppy drive or a second battery. With both batteries installed, you can experience up to an incredible 6.5 hours of battery life. Savor every note of any multimedia presentation or your favorite CD-ROM games with our built-in, 16-bit Sound Blaster® audio and dual stereo speakers. And our integrated infrared port can wirelessly send files to a printer or another computer that is IrDA-compatible.

**ExpressONE™**  
Overnight Notebook Exchange

■ Finally, we've introduced an optional warranty program called ExpressONE™\*. It provides overnight notebook exchange services for delivery the next business day, at home or away. Once again, the Ascentia P Series towers above the competition for all-around notebook performance and flexibility.

\*U.S. only

**KEY FEATURES:**

- 133 MHz Intel Pentium processor with 256 KB level-2 cache
- Large Super VGA 12.1" diagonal TFT Active-Matrix color screen
- Modular 6X CD-ROM drive standard
- Integrated 28.8 kbps data/fax modem
- SmartPoint™ touchpad pointing device
- Switch between a CD-ROM drive, floppy drive or optional second battery in the AST "SmartBay"
- Dual install: Windows® 95 or Windows for Workgroups operating systems
- Multimedia support with 16-bit integrated sound, built-in microphone and dual stereo speakers
- Integrated infrared port

**Large, Colorful, Easy To Read Active-Matrix Super VGA Screens**

Wait until you meet the 12.1" diagonal TFT Active-Matrix color screen that's standard on the Ascentia P Series. Its vibrance and responsiveness makes extended viewing of the Ascentia P Series notebook much easier on your eyes. The Super VGA resolution is just like that on your desktop monitor, displaying as much as 56% more information than on comparable VGA screens. So you can see more columns of a spreadsheet or paragraphs of text at one time, in intricate detail and photo-realistic color.

**Integrated****Communications**

When it comes to the information superhighway, you want to connect at

once. The Ascentia P Series has a quick 28.8 kbps integrated data/fax modem to let you sign on remotely to your corporate network or fax quotations to key clients. You can even send e-mail and be on the Internet in the blink of an eye. Should you ever find yourself in the middle of nowhere, communicating with the rest of the world will be second nature. Furthermore, if you want to print or transfer files without wires, the Ascentia P Series sports a high-speed infrared port to do the job with only an infrared beam.

## SMARTBAY FOR FLEXIBLE COMPUTING FUNCTIONS

### Use The 6X CD-ROM Drive For Impactful Multimedia

A modular 6X CD-ROM drive comes standard on every Ascentia P Series notebook. So you can run all your favorite desktop multimedia programs, play the latest games — or make business presentations — in

stereo sound. You can even use the

new CD databases, or simply enjoy playing your music CDs anywhere, without bringing a separate CD player on the road. The Ascentia P Series also supports software-based MPEG capabilities, allowing you to interweave full-motion video and MIDI, .WAV and .AVI files.

### Extend Productivity With A Second Battery

When you require additional battery life, just remove the CD-ROM drive from the SmartBay and pop in an optional second Lithium Ion battery. Couple this with AST's power management system, and it easily meets the special needs of users who call for extended computing time away from a power source. This is an ideal function for traveling executives, or professionals with multiple work sites.

### House A Floppy Drive For Traditional Data Storage And Retrieval Needs

A floppy drive module also comes standard with every Ascentia P Series notebook. With this floppy drive module in the SmartBay, you're set to utilize floppy disks instantly. Simply swap the CD-ROM drive with the floppy drive whenever necessary. It's a flexible benefit for people who bring their work home. With the Ascentia P Series, and SmartBay, you have a quick solution to varying needs in a truly lightweight and portable system.

## MAKING THE MOST OF THE ASCENTIA P SERIES

### Technology And Power That Rivals Your Desktop

The Ascentia P Series puts many of the best desktop technologies into a notebook computer. Fueled by a fast 133 MHz Intel Pentium

processor, it delivers plenty of speed potential. Teamed with a roomy 256 KB level-2 cache (a memory depository for frequently-used data), your performance increases up to 25%. For the faster data transfer rate of today's advanced desktops, the Ascentia P Series also uses a 32-bit PCI local bus I/O architecture — the highest performing standard I/O now available — that matches the speed of the bus to the processor. And with high-bandwidth EDO (Extended Data Output) memory, the system is quicker as well. Finally, 1 MB of video RAM and simultaneous internal/external monitor support provide exceptional video capabilities.

### Desktop Functionality

With such power at hand, it's easy to envision the Ascentia P Series' desktop capabilities, and with the optional port replicator, you can actualize them. The port replicator puts the convenience of desktop peripherals *immediately* at your disposal. This small connecting unit duplicates the ports on your Ascentia P notebook, but remains on your desk, pre-connected to most PC monitors, mice, external keyboards and/or printers. When you sit down to work, you just make one connection to all the devices by "plugging in" your notebook. One disconnect, and you're completely mobile again. Uncompromised computing mobility can extend your work day by enabling you to work full-throttle at any time.

Clearly, the Ascentia P Series is the notebook computer to do the job.

### ACCESSORIES:

To order your Ascentia P Series accessories, call 1-800-876-4278 to locate your local AST reseller. For your convenience, part numbers have been included to make ordering easy. Call for pricing.

## THE QUALITY AND SERVICE OF A WORLDWIDE LEADER.

With the Ascentia P Series you enjoy the added confidence of buying a notebook backed by AST, one of the largest personal computer manufacturers in the world. Our 3-year worldwide warranty and other optional service programs are honored in over 30 countries. Our ExeCare Plus<sup>SM</sup> 48-Hour Repair\* warranty comes standard the first year. And now, AST offers its exceptional ExpressONE<sup>TM</sup> plan\*, an optional next business day, on-site notebook replacement service, giving your AST notebook extra value...and you extra peace of mind. \*U.S. ONLY

### ASCENTIA P

#### MODELS & PART NUMBERS:

- P133 CTS12.1 1.0 GB/24 MB 503041-501
- P133 CTS12.1 2.1 GB/24 MB 503041-601

#### INTEL® PENTIUM® PROCESSOR:

- 133 MHz

#### MEMORY:

- 24 MB standard, expandable to 40 MB
- 256 KB level-2 cache

#### DISPLAY:

- 12.1" diagonal SVGA TFT Active-Matrix color
- Viewing area: 9.69" W x 7.27" H (24.6 cm W x 18.45 cm H)
- Standard resolution: 800 x 600 x 64 K
- Max. resolution on external monitor: 1024 x 768 x 256 colors
- Contrast ratio: 50:1
- Dot Pitch: .287 mm

#### DISK DRIVES & PERFORMANCE:

- 6X CD-ROM module
- Floppy 3.5" 1.44 MB module
- 1.0 GB or 2.1 GB upgradable hard drive
- IDE controller via PCI bus
- Avg. access (seek) time: 13msec

#### GRAPHICS:

- Cirrus Logic graphics controller GD7548
- 32-bit PCI local bus interface
- 1 MB video memory
- Simultaneous internal/external monitor support
- Enhanced video drivers support
- Windows GUI accelerators

#### POWER MANAGEMENT:

- Advanced Power Management (APM) support
- Suspend and SmartSleep

#### BATTERY:

- Dual Lithium Ion battery capable
- Single battery: 3-4 hrs battery life
- Dual batteries: 5-6.5 hrs battery life
- Primary battery size: 4.4" W x 5.5" D x 1.1" H (11.2 cm W x 13.9 cm D x 2.8 cm H)
- Charge time (system off): 2.5 hrs to 90%
- Charge time (system on): 4 hrs to 90%
- Primary battery rating: 52W-hr

#### AC ADAPTER:

- Auto sensing 115/230 VAC
- Size: 2.4" W x 4.7" D x 1.4" H (6.0 cm W x 11.9 cm D x 3.5 cm H)
- Line frequency: 47 Hz - 63 Hz
- Steady state power 20W (w/o power management)
- Output voltage: 19VDC
- Output current: 2.375A

#### PC CARD EXPANSION SLOTS:

- 2-Type II or 1-Type II and 1-Type III

#### LCD STATUS DISPLAY PANEL:

- Power, battery activity, turbo mode, hard disk activity, floppy disk activity, caps lock, num lock, scroll lock, battery lock, suspend

#### FLASHBIOS:

- BIOS (256 KB) upgrades performed by AST Authorized Service Centers via a 3.5" upgrade diskette

#### KEYBOARD:

- 82/83 key keyboard (101/102 key compatible)
- 18 mm key spacing with 3 mm travel
- 12 dedicated function keys
- Inverted "T" arrow keys
- Integrated SmartPoint touchpad
- Two "Click and Drag" buttons located on sides of touchpad
- Keyboard volume control

#### AUDIO:

- Integrated Sound Blaster Vibra 16 chipset
- MIDI and .WAV support
- Embedded stereo speakers and microphone
- 8/16-bit stereo/mono playback and recording
- High performance 16-bit sigma delta stereo Codec
- MPU 401 UART mode-compatible
- Fully compatible with multimedia PC level-2 specifications
- Hot key volume, bass/treble, and balance control

#### STANDARD I/O PORTS:

- 1 serial port (16550A UART) (9-pin D-shell connector)
- 1 parallel bi-directional port (25 pin D-shell connector)
- 1 analog VGA port (15-pin D-shell connector)
- 1 PS/2 mouse/keyboard/keypad port (6-pin connector)
- PCI expansion connector: connect optional port replicator
- 1 two-way infrared port
- Integrated 28.8 kbps data/fax modem (U.S. only)
- 1 microphone-in port (mono 1/8" phone jack)
- 1 line-in port (stereo 1/8" phone jack)
- 1 line-out port (stereo 1/8" phone jack)

- 1 game port (15-pin D-shell connector)
- DC power jack

#### SECURITY:

- Administrator password
- User password
- Software feature to protect system boot, setup, and keyboard/mouse input
- Password backup
- Kensington cable lock support

#### DIMENSIONS & WEIGHTS:

- 11.3" W x 8.98" D x 2.15" H (28.9 cm W x 22.8 cm D x 5.4 cm H)
- 6.8 lbs (3.1 kg) with floppy drive
- 7.1 lbs (3.3 kg) with CD-ROM drive

#### TEMPERATURE RANGE:

- Operating: 41° to 95° F (5° to 35° C)
- Shipping: -4° to 140° F (-20° to 60° C)
- Relative humidity (non-condensing): 20 to 80% (operating) 8 to 90% (storage)

#### OPERATING SYSTEM:

- Dual Install: Windows 95 or Windows for Workgroups 3.11

#### THIRD PARTY APPLICATIONS:

- PUMA TranXit
- Prodigy®, America Online® and CompuServe® starter kits
- Dow Jones Personal Journal
- LapLink® for Windows

#### DOCUMENTATION:

- Online Manual
- User's Manual
- Windows 95 Guide
- AST Quick Start Guide

#### 3-YEAR WORLDWIDE LIMITED WARRANTY:

- Year 1: ExeCare Plus<sup>SM</sup> 48-hour repair (U.S. only)
- Years 2-3: Worldwide carry-in service
- Optional: ExpressONE<sup>TM</sup> overnight notebook exchange (U.S. only)

**PLUS<sup>SM</sup>**  
**EXECARE**
