MANHATTAN™ D

THE WORKGROUP SERVER SOLUTION AT A DESKTOP PRICE.

The Manhattan™ D Series provides a comprehensive server solution for small workgroups, first time server sites, remote branch offices and larger offices requiring an additional server. The Manhattan D Series delivers mission-critical functionality such as performance, availability, manageability and reliability at a price that won't break the bank.

- 200 MHz Intel® Pentium® Pro processor — high-performance at an affordable price
- Intel® LANDesk® Server Manager software provides easy-to-use network monitoring with event alerting
- Optimized and certified for Novell® NetWare, IntranetWare® and Microsoft® Windows NT® Server
- Self-paced training by CBT Systems to help you manage your network
- Double your data throughput with Ultra/Wide SCSI — today's fastest I/O technology
- Integrated 10/100 Fast Ethernet for high-performance networking
- Additional technical specifications and technology White Papers available on AST's Web Site, http://www.ast.com

MANHATTAN™ D SERIES:

PROCESSOR:
- 200 MHz Intel® Pentium® Pro processor

CACHE:
- 256 KB L2 write back

MEMORY:
- 32 MB ECC EDO RAM standard, expandable to 512 MB
- 4 DIMM sockets

CD-ROM DRIVE:
- 8X CD-ROM standard on all models

GRAPHICS:
- 1 MB of integrated video memory

SCSI DISK SUBSYSTEM:
- Integrated Ultra/Wide PCI SCSI

EXPANSION SLOTS:
- 3 PCI, 2 ISA

DISK DRIVES:
- 1.44 MB, 3.5" diskette drive
- Three 5.25" external drive bays
- Six 3.5" internal drive bays

POWER SUPPLY:
- 275 watt

NETWORK INTERFACE:
- Integrated 10/100 Fast Ethernet

SOFTWARE INCLUDED:
- FlashBIOS
- SCSI drivers
- Intel® LANDesk® Server Manager software
- Microsoft Windows NT Server (on some models)
- CBT Systems courseware

KEYBOARD/MOUSE:
- Full-function, height adjustable 101/102 key Windows® 95 keyboard
- Two button mouse

SECURITY:
- Password protection
- Chassis intrusion
- Video blanking

STANDARD I/O:
- Two 9-pin serial, one parallel port, PS/2 mouse port, keyboard port

SERVER MANAGEMENT:
- Failure detection: voltage & temperature variations, OS watchdog, fan failed, drive failed, power supply failed, processor status, ECC memory, NIC instrumentation

DIAGNOSTICS:
- Thermal and voltage sensing on system
- Advanced Diagnostic Software

CERTIFICATION:
- Novell NetWare 4.1 & 3.12 and IntranetWare 4.11
- Microsoft Windows NT Server 3.51 & 4.0

MODELS:
- **2003** - One 2 GB Ultra/Wide SCSI hard drive installed
- **4003** - One 4 GB Ultra/Wide SCSI hard drive installed
- **4003 NT** - One 4 GB Ultra/Wide SCSI hard drive installed, Microsoft Windows NT Server pre-installed

WARRANTY:
- Three-year on-site limited warranty
- Optional GuardianCare℠ 4-hour on-site response program available

OPTIONS:
- ECC EDO Memory: 32 MB, 64 MB or 128 MB DIMM
- Ultra/Wide SCSI Drives: 2 GB or 4 GB
